CHS is a well established Corporate Investigation and Risk Management Company operating nationally and internationally with our head office located in Nunawading, Victoria.

Our key senior staff possess a wealth of experience gained from various fields including the insurance and workcover sectors, state and federal law enforcement and top tier legal firms.

We are committed to providing a 'total professional support service' to all of our valued clients including several 'Top 100' Corporations, State and Federal Government departments, local and state Statutory Authorities, Legal Firms and major Banking and Financial institutions.

CHS is proud of our extremely high standing in the corporate investigation and risk management arena, which we attribute to our core values of ethics and integrity.

In 2003, we were the first corporate investigation and risk management firm to introduce an 'online' case instruction and management service. This service has now been replicated by some of our competitors, which is the highest compliment we can receive.

We take pride in our 'products' and through continuous improvement modeling and service evaluation, we strive to be at the forefront of our industry.

At **CHS**, we firmly believe that we can develop a strategy to respond to any type of issue or incident that your company may identify.
